# Strategic Risk Solutions

For the past decade, Strategic Risk Solutions has earned the reputation as the “go to” company for designing and managing captives and creating innovative alternative risk programs. Newly independent, SRS is focused on delivering customized, practical solutions for corporate clients and groups.

Relative to other captive managers owned by the major brokers, SRS provides its clients with a totally independent team focused on value and creativity. We have a flat management structure that enables a quick turn around of consultative reviews and captive creations.

With offices in Bermuda, Vermont and Boston, SRS is a fully staffed onshore and offshore captive manager that has the resources to deliver value added risk financing advice.

SRS currently manages captives whose sponsors range from Fortune 500 companies to smaller, privately owned firms. SRS staff also has extensive experience managing group captives in the medical, energy and manufacturing sectors. SRS understands that the traditional concept of risk transfer is continuously evolving. Increasingly, organizations will be required to retain more risk while looking for vehicles that utilize capital and transfer risk more efficiently.

Your company may stand to benefit from the creation of a captive or other alternative risk structure. We will analyze your risk situation, goals, and recommend the best solution. Our motive is clear: a relationship that accrues long-term benefits for your company.

Do yourself a favor and let us deliver ...  
Strategic Risk Solutions. It's who we are!
