## Definitions and Operations

**What is a Captive?** A captive insurance company is an insurance company owned and controlled by its insured(s) with the primary role of insuring the risk exposure of its owner(s) and affiliates.

### What is a Rent-A-Captive?

Rather than going through the process of establishing a traditional captive and investing large amounts of capital, a rent-a-captive facility is owned by experienced insurance professionals and the insured 'rents' this unaffiliated facility. Often referred to as a 'condo captive', rent-a-captive programs are easier to establish and more capital/cashflow efficient.

### What is an Incorporated Cell Captive (ICC)?

Cell Companies are a legally separate form of rent-a-captive meant to provide additional security and autonomy for clients interested in the rent-a-captive concept. Each incorporated protected cell (ICC) is formed as a corporation or other legal entity and has a legal identity independent from that of its parent as well as the Green Mountain captive facility. ICCs provide greater control and more certainty to their participants.
