- ✓ *Trusted Partner - Proven Quality of Service*
- ✓ *The Industry Best - Working for You*
- ✓ *Global Capability - Local Expertise*

## Introduction

Strategic Risk Solutions (SRS) is the world's largest independent insurance company manager. With 30 years of experience, SRS provides management and consulting services to a wide range of insurance company entities, from single parent captives to complex commercial insurers and reinsurers. SRS has operations in the United States, Canada, Europe, Barbados, Bermuda, Cayman Islands, and South Africa.

Our Actuarial Team can support your insurance entity in Cayman providing tailored solutions to suit your needs. We work with non-life (re)insurance entities including captives.

## Our Services

We can provide actuarial support to meet CIMA regulation:

- > As part of annual returns, we can provide actuarial review of reserves and reporting aligned with CIMA Actuarial Valuation Rules and Statement of Guidance to meet best practices and, when required, regulatory submissions.
- > For new and growing business, we can provide actuarial support business plans required for regulatory applications.

Using actuarial models and techniques we can help support your business decisions:

- > Pricing and Premium Setting
- > Loss Reserving and Capital Modeling
- > Financial and Capital projections

We appreciate that markets and insurance requirements are continuously changing, we can support by:

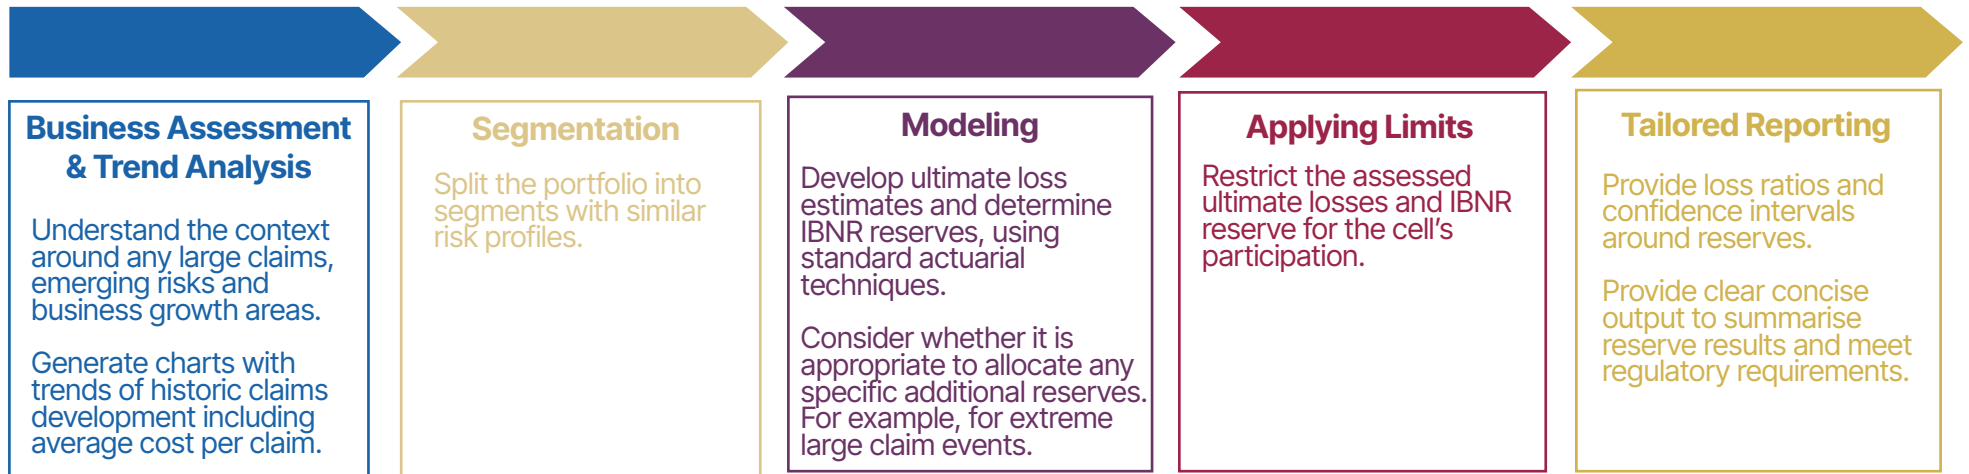

- > Performing a Captive Feasibility or Risk Optimization Study.
- > Providing IFRS 17 guidance, calculations, and implementation.

Our actuarial engagement work complies with Actuarial Practice Standards (APS) and relevant Technical Actuarial Standards (TAS).

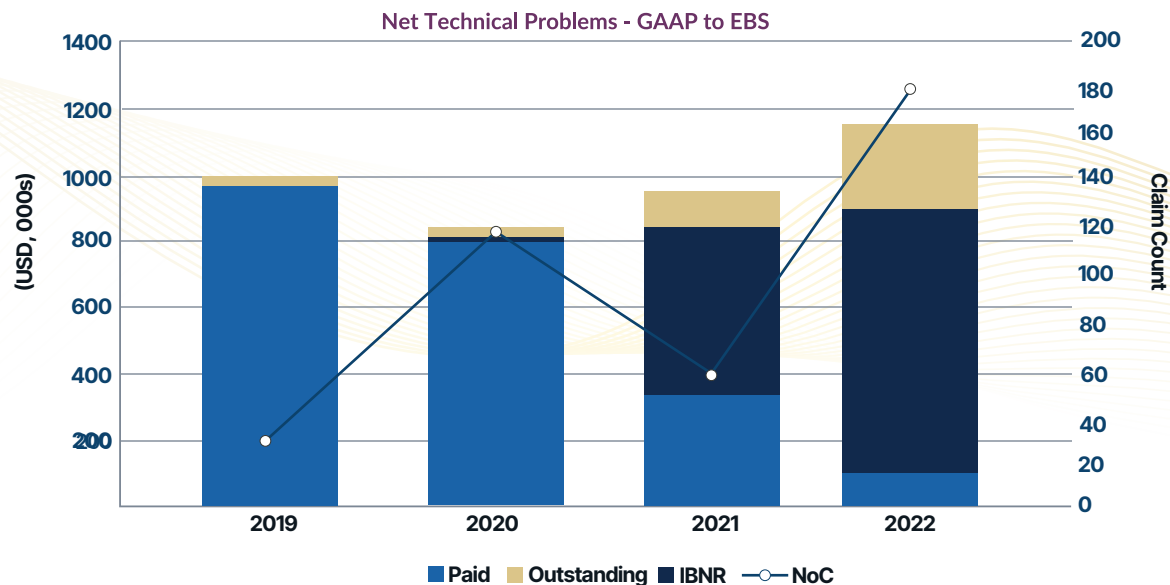

# Focus on: EBS and BSCR Support

The below case study provides an overview of an SRS Actuarial Project to support a Class 3A Insurer with year-end CIMA regulatory requirements. As part of our project scope, we would include providing support with responses to any queries raised by Cayman Regulatory Authority and auditors in relation to our work.

We have created a streamlined process with your insurance manager to generate fast and efficient results.

We maintain independence as an Actuarial Team, but within SRS International we have clear communication channels with your insurance manager. This means a quicker handover between each step and faster results for you.

## Building Your Team

*The Industry's Best Working for You*

At SRS we have a global reach with local experts. We appreciate the intricacies of each location's regulatory requirements and can provide streamlined reporting using our range of bespoke in-house tools. Our actuarial teams have years of experience in supporting clients across various industries with a wide range of risk profiles.
