

Your Career Perks with SRS

As an employer of choice, SRS provides exceptional benefits to all employees. Below are just a few of the benefits you can take advantage of when you join our team. Keep in mind that we are a global organization so some of the benefits are based on various country rules and regulations.

Should you need more information than what is provided here, please reach out to jobs@strategicrisks.com.

When it comes to time off...

Everyone needs a break. We know that, which is why SRS offers a **generous vacation package** as well as statutory holidays. Take time to recharge your battery, come back refreshed, and ready to rock!

We work in insurance...

So of course Life Insurance and Accidental Death & Dismemberment (AD&D) are offered. Under the current plan, **the Company pays 100% of premium.**

Planning for your future...

An SRS retirement plan will help you ease into your "post-career years". Depending upon where you are in the world, SRS offers a **retirement vehicle with a generous contribution** or match to a pension plan or 401(k).

And on those days when you aren't feeling your best...

You and your dependents can participate in our group medical program. We currently offer a **variety of medical plans** with the company paying 100% of the premium for at least one plan in your area.

Should any unforeseen circumstances take you away from your career...

SRS does offer **short-and long-term disability packages** that are paid for at 100% by SRS. Hopefully, you will never need these "peace of mind" benefits, but it's good to know they are available if you ever do have a need.

Commitment to Professional Development

SRS strongly encourages its staff to **seek higher education** and designations that help them to grow personally and help the firm to grow as an organization.
