

Strategic Risk Solutions

Better Insurance. Better Future.

Our Mission

We empower businesses to control and leverage risk with tailored and flexible coverage.

We aim to redefine the global insurance industry by setting the standard for innovation, trust, and client success. We envision a future where businesses everywhere operate with confidence, fully equipped to turn risks into strategic advantages.

Our Story

SRS was formed in 1993 on the belief insurance management is about more than keeping books and records. It's about keeping trust.

Consistency in delivering top-tier services and exceeding client expectations has been our hallmark since inception. This commitment led us to develop processes audited under SSAE18 and ISO 27001 for our insurance management services.

Having had a unique position as an **independently owned** entity helped us foster collaborations across the insurance spectrum. Our history primed us for partnership, and we always value the relationships we share with partners and clients.

Our greatest asset is our people.

Our Impact

SRS provides client-focused management and consulting services to the insurance and alternative risk financing industry. We have built an industry-leading position in North America, Europe, South America, and offshore captive insurance markets including Bermuda, Cayman, and Barbados providing services to:

- Single Parent Captive
- Cell Captives
- Agency Captives
- Commercial (Re)Insurers
- Group Captives
- Risk Retention Groups
- Insurance Linked Securities
