

Enterprise Risk Management

Strategic Risk Solutions

Enterprise Risk Management (ERM) helps your organisation identify, assess, and mitigate risks before they impact your business. With our tailored ERM solutions, you gain insight and structure needed to make informed decisions, protect your assets, and ensure long-term stability. Let us help you turn uncertainty into opportunity.

What is Enterprise Risk Management (ERM)?

ERM works with business units across the company to enable leadership to understand and plan for key risks affecting your organisation. Our strategy helps to identify, assess, and prepare for potential losses, dangers, hazards, and other types of harm that may interfere with your organization's operations and objectives.

Strategic Risk Solutions (SRS) ERM team also focuses on business resiliency governance, including crisis management, business continuity, and disaster recovery. Responsibility for ownership and maintenance of SRS business resilience capabilities is embedded within our business and administered throughout our organisation.

How is ERM Relevant to Your Business?

SRS maintains a Governance, Risk, and Compliance (GRC) practice which provides consulting services to a variety of risk bearing entities from captive clients to commercial insurers. With consultants in the US and Europe, our GRC services are available internationally.

Our ERM services include:

- **Regulatory compliance** - preparing and filing reports, responding to authorities, and complying with domicile regulator.
- **Internal audit** - analysing existing processes, systems, procedures, and areas of operational improvement.
- **Independent governance review** - evaluating and identifying potential gaps as well as developing a performance plan.
- **Board effectiveness** - offering guidance, training, and independent dictatorships for existing boards.

How SRS ERM Services Work for You.

SRS ERM services are designed to be flexible, allowing you to choose the level of support that best fits your organisations needs.

- **Fully Outsourced:** Our team will handle the entire ERM process on your behalf. We'll implement and maintain a comprehensive ERM framework, giving you insight into your business without the cost and complexity of building an internal team.
- **Collaborative Support:** Already have an in-house team or looking to establish one? We can provide independent audits, trainings, and ongoing advisory support to strengthen your existing processes and ensure they align with your business goals.

Ready to take control of your organisation's future with a tailored ERM strategy? Connect with us at www.strategicrisks.com or reach out to one of our experts for a one-to-one discussion.
