## Strategic Risk Solutions

Enterprise Risk Management (ERM) helps your organisation identify, assess, and mitigate risks before they impact your business. With our tailored ERM solutions, you gain the insight and structure needed to make informed decisions, protect your assets, and ensure long-term delivery of your strategy. Let us help you turn uncertainty into opportunity.

### Enterprise Risk Management in a Nutshell

Enterprise Risk Management (ERM) is a holistic, tried-and-tested, and universally recognised process that helps to identify, assess, and mitigate risks that may interfere with your organisation's operations and objectives. SRS ERM unit works with the stakeholders across your company, enabling leadership to understand and plan for risks that affect the organisation and its strategy objectives.

Our holistic approach to ERM covers a wide range of topics, including existing & emerging risks as well as more topical risks such as supply chain, reputation, safety, etc.—all converging around building resilience.

### SRS ERM Solutions for Your Business

We propose to our clients a boutique approach, which is aligned with the SRS culture of 'best-in-class servicing to our clients'. We understand that many global corporations have a Risk Management Framework (RMF) in place. Therefore, our concept is that, based on the maturity of your existing RMF and your existing ERM strategy, you can tailor the service(s) you need from the following ERM pillars:

#### Risk Assessment Facilitation

Fully outsource to SRS the organization and the facilitation of your Risk Assessment Workshop(s)

#### Risk Reporting

SRS supporting you in the preparation of the risk reporting to your stakeholders to ensure the best impact

#### Risk Training

SRS sharing ERM knowledge/best practices and providing ERM Training to support your in-house solutions

#### ERM Effectiveness

SRS providing the tools and support for assessing the maturity of your ERM setup

#### Climate Change

SRS, in collaboration with its dedicated partner(s), assists you in assessing the exposure of your Company to Climate change and build your resilience
